

## Eartha Kitt

### Disco Ensemble

You lifted a room in my house, in my house,  
Special fly got through the floor, clang me on.  
But you made a room in my heart, off my heart  
Who could ever ask for more?

Do you remember sinking in your time,  
Right through the center?  
Do you remember sinking in your time,  
Right through the center of the earth?

And now I can't find a way or the keys to my house,  
Left me lying on the floor, play me on.  
And I can't erase my smile, stupid smile,  
Who could ever ask for more?

You made a home on my heart, of my heart, my empty heart.

Do you remember sinking in your time,  
Right through the center?  
Do you remember sinking in your time,  
Right through the center of the earth?

You made a home on my heart, of my heart, my empty heart
