

## First Aid Kit

Disco Ensemble

Here I lay in a crashed car  
No-one knows when I've left  
Here I lay, staring at stars  
But I know their just satellites

The first aid kit  
It's useless  
It's too late  
It offers no help

I Heard the sound of the sirens  
Long gone in the distance a sweet sonnet  
And I have seen no guardian angels  
Well, I have my doubts if they even care

Take me to the hospital  
Drive fast 'cause I am bleeding  
Take me to the hospital  
Drive fast 'cause I am bleeding

Snow falls through the windshield  
I guess this time my fate is sealed  
Here I'll lay forever  
They'll find me under the autumn leaves
