

Invisible Ink

Disco Ensemble

I wrote your name on the wall
With blood red aerosol
Isn't that just what you wanted
I drew your face on to my notepad
With invisible ink
Isn't that just what you're scared of
Cursing the gender
Cursing it for it's temper

We don't feel like girls do
We don't feel like girls do

I carved your name on every tree
In the whole wild world
Isn't just what you wanted
I forgot to ask can I write a song about you
With invisible ink
Isn't that just what you're scared of
Cursing the gender
Cursing it for it's temper

I'm yours for life
Thought I don't scream it out
