

Protector

Disco Ensemble

I run through the night
In three directions at the same time
A view of the town from three angles at the same, at the same time

I will protect, protect you
I will protect, protect you

I got your name hanging from my key chain
I steam up your envelopes and read through your every single letter, every letter

And I will protect, protect you
I will protect, protect you
I control the controller
I command the commander
I'll protect, protect you

If you give the keys I'll come inside
I'll stand by the door and flicker the lights
Yeah, I go through your things while you sleep at night
I'll stand by the window and flicker the lights
If you give me the keys I'll come inside
If you give me the keys I'll come inside

And I will protect, protect you
I will protect, protect you
I control the controller
I command the commander
I'll protect, protect you
I will protect, protect you
