

Skeleton Key

Disco Ensemble

Lungs filling up with powder from the guns
You could be safe for a day here
Son you'll be growing talons soon enough
And I am captured here
Run I can hear the devil's silent hum
You could be safe for lifetime
And I'm allowed to have one phonecall

Lock up (lock up) lock up the closet
Skeletons they never learn
Halo (halo) halo
I could never wear it well

Come and save me cause you could be the one
We can be numb for a lifetime
And we're allowed to have one phonecall

Once in a year
Safe for a lifetime
Once in a day
And once every second of this life
Once in a year
And once in a lifetime
Once every day
And once every second of this fucking life
