

Sleep On The Wheel

Disco Ensemble

Just one more round
And we're out of this place
Wish us the best of luck
We'll leave without a trace

There's a saying:
Dead or alive
I heard them saying:
Dead or alive

And then I nearly slept on the wheel
But your love kept me awake
And then I nearly blew all away
But your love kept me sane

Roll the windows down
Get the smoke out of our clothes
The fog has gathered over the road
Just like a ghost

And then I nearly slept on the wheel
But your love kept me awake
And then I nearly blew all away
But your love kept me sane
