

# Keep Falling Down

Disharmonic Orchestra

No one comes to protect me  
While you want me to believe  
Searching the souls of the unseen  
From the anger in between

There's the way out of nothing  
From the shadows of disgrace  
I suffer the days of abortion  
When I've seen me passing away

You can't hide when you show me  
When you want me to believe  
Tearing apart, out of control  
Into a wave of an unknown hole  
You'll fly again  
You'll fly again

A million angels sing and cry  
No one has told me  
Wedding bells will ring and die  
Before they drown me

7 days a week I try  
Someone will guide me

A million angels sing and cry  
No one has told me  
Wedding bells will ring and die  
Before they drown me

7 days a week I try  
Someone will guide me  
You'll fly again  
You'll fly again

A million angels sing and cry  
No one has told me  
Wedding bells will ring and die  
Before they drown me

7 days a week I try  
Someone will guide me  
You'll fly again  
You'll fly again

A million angels sing and cry  
No one has told me  
Wedding bells will ring and die  
Before they drown me

7 days a week I try  
Someone will guide me
