

# Only For So Long

Dishwalla

How many times has this gone on?  
Call 'cause it's just been too long  
Say it's good to hear it's going fine  
Check that you're still featured in my mind

Tell me what you want to hear  
And I'll play along  
Tell me when you want me near  
I'll play along but only for so long

Show me scars where it began  
And I will come with violins  
I don't need a clock to know it's wasted time  
What's your mood ring doing now?

Tell me if you want me near  
I'll play along  
Tell me what you love to fear  
I'll play along but only for so long

Only for so long  
Only for so long  
Only for so long

Tell me if you want me near  
I'll play along  
Tell me what you love to fear  
I'll play along
