

## Subcore

Dismantled

You've reached it  
The final frontier  
The grid is behind you  
Yet the mind is blank

Encoded sunsets blind you  
The centuries fade to seconds  
Deleted time refusing shelter

Memories of skylines rising, falling  
Descent towards a final core

A human hope poisoned from the skyline.  
Withheld to ease the backward march  
Faith eclipsed by ignorance  
Deleted time refusing shelter  
Dismantled.
