

## Afterimage

Dismember

Given a gun become god for a day  
on my way to carry it all out  
take on blowing the bitterness away  
contribute with my share of grief  
from being trapped in life  
become a prisoner in death  
if there was something else worth dying for  
i'd give myself

A promise of blood in the air  
blow it up burn it down for all I care
