

## Black Sun

Dismember

Unholy alliance, science and the occult  
A world war Legend still waiting to unfold  
A military industry in underground death factories  
Produce more and more esoteric weapons of war  
Clandestine operations  
Inhumane experimentations

Treading unknown paths, explore the bizarre  
Twist the tide, reverse the fortune of war

Unnatural sightings, mysterious Lights  
Dark secrets of the Reich  
The legacy of the black sun  
Burning bright in the sky

Are they lying in wait beneath the polar ice  
Or hiding in the dark side of the moon

Over 60 years have passed, legend remain unsolved  
As the war was lost they took their secrets to the grave  
Will they emerge from the shadow  
Vengeance and victory, rise to power once more
