

## On Frozen Fields

Dismember

I rise from my trench  
Blood rushing in my head  
Out into no-man's land  
Out to join the dead  
Sick of living, unwilling to die  
Killing just to stay alive  
On Frozen Fields of horror  
March through the firestorm  
Mangled victims lay  
Forgotten and forlorn  
To voiceless cries only  
The deaf ad here  
Blinded I rage uncontrolled  
Fool killing fool  
Conflict makes us tick  
Pig killing pig  
The human race is sick  
Pain twist my body  
As my enemy splits my face  
Another fucking victim  
Left to die in a bloody haze
