

# Shadowlands

Dismember

Who watches the watchers  
hiding behind the light  
who'll pay for their crimes  
will you die for their lies  
the star and the crescent moon  
symbol of slavery  
soaked in blood  
throughout history

Fanatical minds  
enforce the way and law  
pound the weak into submission  
forced into misery  
betrayed by their leaders  
they're sent out to die  
on blooddrenched fields  
all praise allah

Deadly, Opium for the mind  
it dulls the senses and kills the soul  
Garbage, Holy verses of the koran  
justify their war on other lands

No fear of dying martyrdom awaits  
it's easier to die than to live
