```
Why would I burn the castle down?
Why would I drive the car to the ground?
Why did I pick you up that night?
Should've left you in the morning light
I'll feel no pain.
I will raise my head up for the wrecking ball.
I'll follow you,
Into the mirrored cave.
Turn dust into a body,
Weld the waves.
I'll feel no pain.
I will raise my head up for the wrecking ball.
I'll feel no pain.
I will raise my head up for the wrecking ball.
Turn this ship around.
[x3]
I'll feel no pain.
I will raise my head up for the wrecking ball.
I'll feel no pain.
I will raise my head up for the wrecking ball.
