

# Valentine

Dispatch

It's a fadin' blue  
Into the black  
The news is goin' down  
Into the dirt  
Crushin' the white stones  
The sun expires  
The wind is zipped up  
Hide the fire  
In a tin cup  
Freeze the river  
Cross out the clouds

I bet it was a bumpy ride  
I bet it was slip and a slide  
You were upside down  
Rollin' around lost in time  
Ah valentine

So lets seal up the leaks  
Is it really goin' down?  
Broken flame bones to blame  
Ropes in flames kisses from the parade  
Tying ribbons of rain  
Paradise, sacrifice, lemon lips  
A pyramid of apples

I bet it was a bumpy ride  
I bet it was slip and a slide  
You were upside down  
Rollin' around lost in time  
Ah valentine

C'mon c'mon lets go  
We got the car packed up  
C'mon c'mon lets go  
Keep my mind steady

Footprints of forever  
Suitcase in the hole  
Holdin' my hands  
Watchin' tears fall  
She's watchin' them fall  
Promise of another  
It's better to look right now  
Scared of what we'll see  
Will he have the same face as me?

I bet it was a bumpy ride  
I bet it was slip and a slide  
You were upside down  
Rollin' around lost in time  
Ah valentine

Lost in time, lost in time, lost in time  
Ah valentine
