

## Idoless

The Distillers

I don't know but I know it  
You better find out what your place is  
Urban plight is in the city streets  
Its infectious and its complacent

Idoless

Over expression and rationed, assimilated temptation  
Integrity - integrate...integration  
Molested accosted, detested  
I'll wreck this coming down like the apocalypse

Idoless..syndication

I don't know but I know it  
You better find out what your name is  
Arrested, infested, its your collective  
Coming off like you wrote the ten commandments

Idoless

I don't know but I know it  
You better find out what your place is  
Urban plight is in the city streets  
Its infectious and you are complacent

Idoless

The idol is within you  
Watch it come on through  
The idol is within you  
Watch it come on through
