

## Awaken

## Disturbed

Stripped of life, alone  
In the midst of something that I  
Want to play with your evil inside  
Wanting, letting go, of what never could be again  
Lost and alone  
Imprisoned now inside your mind

With the way you tried  
To destroy me again  
You were waiting and living for no one  
With the way you tried  
To completely refuse all your life feed on your nothing  
You'll never live up to me

Awaken you  
With little evil inside  
Feed on your nothing  
You'll never live up to me  
I've stricken you  
I don't want to live with the lie

Feed on your nothing  
And you'll never live up to me

Awaken you  
Can't live up to me  
I've stricken you  
Feed on your nothing  
And you'll never live up to me

Stripped of life, alone  
In the midst of something that I  
Want to play with your evil inside  
Wanting, letting go, of what never could be again  
Lost and alone  
Imprisoned now inside your mind

With the way you tried  
To destroy me again  
You were waiting and living for no one  
With the way you tried  
To completely refuse all your life

Feed on your nothing  
You'll never live up to me

Awaken you  
With little evil inside  
Feed on your nothing  
You'll never live up to me  
I've stricken you  
I don't want to live with the lie  
Feed on your nothing  
And you'll never live up to me

Awaken you  
Can't live up to me

I've stricken you  
Can't live up to me

There isn't a thing that I can do  
Watching this whole thing just wash away  
Making me long

There isn't a thing that I can do  
Watching this whole thing just wash away  
Making me long  
Making you strong

Awaken you  
With little evil inside  
Feed on your nothing  
You'll never live up to me  
I've stricken you  
I don't want to live with the lie  
Feed on your nothing  
And you'll never live up to me  
Can't live up to me  
Feed on your nothing  
You'll never live up to me
