

# Save Our Last Goodbye

Disturbed

"Hello?"

"Please leave a message after the tone"

"Hey just calling you back doing pretty good today actually, didn't throw up at all.

Yeah tomorrow I got this procedure, I think everything's gonna go smooth the re is all.

I'm hoping anyways. I need some good news for once."

Don't want to hear it's over  
What a rude awakening  
The angel of death has come  
And ripped you from my lives  
I can't stand the devastation  
Relentless agony  
Hope that I get to see you  
On the other side

Blue sky has turned to blackest night  
Now you're gone, it just isn't right

Save our last goodbye  
Embedded in my mind  
Your face will never leave me  
Save our last goodbye  
It's killing me that I won't get to hear  
Your laughter anymore

What faith I had is broken  
And I question everything  
And those shards of doubt  
Begin to penetrate my heart  
With every waking hour  
Within everything I see  
The shadows of your loss  
Are tearing me apart

Blue sky has turned to blackest night  
Now you're gone, it just isn't right

Save our last goodbye  
Embedded in my mind  
Your face will never leave me  
Save our last goodbye  
It's killing me that I won't get to hear  
Your laughter anymore

"We're sorry, this mailbox is full and can not taking messages"

My world is shattered, in disarray  
I'm beaten down, drained emotionally  
They say in time the pain goes away  
But in my soul it will forever stay

Save our last goodbye  
Embedded in my mind  
Your face will never leave me  
Save our last goodbye

It's killing me that I won't get to hear  
Your laughter anymore

Save our last goodbye  
Embedded in my mind  
Your face will never leave me  
Save our last goodbye  
It's killing me that I won't get to hear  
Your laughter anymore

"We're sorry, you've reached a number that is no longer in service"
