

# Want

## Disturbed

She want me, no

Your mind won't let you say that you want me  
Your mind won't ever, never let you say what you want  
You howl and wail like a banshee  
Still your mind won't ever let you say

Your mind won't let you say that you want me  
Your mind won't ever, never let you say what you want  
My little tired devotee  
Your mind won't even let you feel

Quivering now, shivering now, withering  
Your mind won't let you say that you're  
Wondering now, pondering now, hungering  
Won't let you say that you're

Questioning, wavering, weakening  
Your mind won't let you say that you're  
Harkening, listening, heeding me now  
Won't let you say that you want

Your mind won't let you say that you want me  
Your mind won't ever, never let you have what you want  
I feel your hunger to taste me  
Still your mind won't ever let you say

Your kind is just the type that should use me  
But your mind won't seem to let you have  
The opportunity to abuse me, abuse me  
Your mind won't even let you feel

Quivering now, shivering now, withering  
Your mind won't let you say that you're  
Wondering now, pondering now, hungering  
Won't let you say that you're

Questioning, wavering, weakening  
Your mind won't let you say that you're  
Harkening, listening, heeding me now  
Won't let you say that you want me

Savor the addiction  
Savor the affliction, savor me  
Savor the addiction  
Savor the affliction, now

Savor the addiction  
Savor the affliction, savor me  
Savor the addiction  
Savor the affliction

Savor the addiction  
Savor the affliction, savor me  
Savor her mind, yeah

Your mind won't let you say that you want me yet

Your mind won't let you say that you want me yet  
Your mind won't let you say that you want me

Because your mind won't let you say that you want me  
Don't want me  
Your mind won't let you say that you want me  
Don't want me

Your mind won't let you say that you want me  
Don't want me  
Your mind won't let you say that you want me  
Don't want me

What do you want?  
What do you want?  
What do you want?  
What do you want?
