

Kiss The Stars

Diva Destruction

I've felt this way before today
It's why I have been fighting so hard,
I knew this was worth the fire
Give me a chance and we'll touch the sky.

Can you feel it inside?
Can you feel it?
Can you feel it burning inside?
Kiss the stars with me,
Kiss the stars with me,
Kiss the stars with me,
Kiss the stars with me,
Come with me... come and fly!

Come step across my dreams surreal,
Breathe this power that we're building here,
You're my hope, you're my remedy,
Searching so long to fly this free.

Can you feel it inside?
Can you feel it?
Can you feel it burning inside?
Kiss the stars with me,
Kiss the stars with me,
Kiss the stars with me,
Kiss the stars with me,
Come with me... come and fly!

Can you feel it inside?
Can you feel it?
Can you feel it burning inside?
Kiss the stars with me,
Kiss the stars with me,
Kiss the stars with me,
Kiss the stars with me,
Come with me... come and fly!
Kiss the stars with me,
Kiss the stars with me,
Kiss the stars with me,
Kiss the stars with me.
