

## Playing The Liar

Diva Destruction

Couldn't stand to see me happy  
Couldn't stand to watch me leave  
But you don't really want me back now  
You just want to watch me bleed, me  
Bleed, mind games, mind games, your  
Mind games never end, they never end  
Playing with fire, playing the liar, you  
Always did just want us both, lies lies lies  
Playing with fire, Playing the liar, you're  
Always selfish as can be, lies lies lies  
Here we go once again now, your mind

Games never end, you want your cake  
& me too, you always want it all, it all now,  
Cheater, cheater, a cheater always cheats  
They always cheat, they always cheat  
Not enough to rule the goth scene, you  
Want to rule me too, industrial god to all  
Your music's as sick as you, as you now  
Selfish, selfish, your selfishness is sick  
It's always sick, it's always sick
