

## Run Cold

### Diva Destruction

Here, all burning up in this fever  
While you all leave to have your fun with no care  
When I'm too sick to be left in this room alone  
And way too weak to fight you all at once.

You are, yes, you are  
The ones who've gone way too far,  
I am the one you all left for dead,  
How dare you?  
I've been taken where the,  
I've been taken where the,  
I've been taken where the  
Trees run cold, run cold.  
How dare you?  
I've been taken where my,  
I've been taken where my,  
I've been taken where my  
Blood runs cold, runs cold.

You all picked a great time to trample me  
When you know I can't even speak, how could you?  
All sink so low at this time to break our deal here,  
You thought you'd all take my place for the shows.

You are, yes, you are  
The ones who've gone way too far,  
I am the one you all left for dead,  
How dare you?  
I've been taken where the,  
I've been taken where the,  
I've been taken where the  
Trees run cold, run cold.  
How dare you?  
I've been taken where my,  
I've been taken where my,  
I've been taken where my  
Blood runs cold, runs cold.

It's over, it's over,  
All these betrayals.  
It's too late, it's too late,  
I want you all gone now.

I've been taken where the,  
I've been taken where the,  
I've been taken where the  
Trees run cold, run cold.  
How dare you?  
I've been taken where my,  
I've been taken where my,  
I've been taken where my  
Blood runs cold, runs cold.
