

# You're The Psycho

**Diva Destruction**

You blame your victims  
You've got some nerve  
You call them all insane  
And yet you cause their pain  
You lead them all on  
I've watched you play  
How do you sleep at night  
As you play a sadist's game

I can see it in your eyes again  
I can see it in your grin again  
You're the Psycho  
And you're the one who's sick

Your wicked ways will show  
You want the kill  
You only choose the weak  
And you cut way too deep  
The great imposter to all  
And the greatest imposter to me
