

Make It Out

Divided By Friday

Now things are changing I'm aware
Of the feeling that you're losing all you care for
Don't let it get you down look around
Regret's contagious in this town
So keep on looking on the bright side

Because these nights they won't stay this way forever no
Now that your world's changing

It's not the end of the summertime
Falling from the one's you'll leave behind
Whoah tell me can we can make it out
It won't be far away it'll be closer then you know
Release all your fear and doubt
And tell me how to make it out

So calm yourself
Just thinking of the thought
You're saying goodbye
You've been working the times
But things will get better
They just get better oh

These nights won't stay this way forever no
Now that your world's changing

It's not the end of the summertime
Falling from the one's you'll leave behind
Whoah tell me can we can make it out
It won't be far away it'll be closer then you know
Release all your fear and doubt
And tell me how to make it out

Whoah
And your leaving everything behind
This is such a waste of time and it's not worth wasting mine

These nights won't stay this way forever no
And now that your world's changing
Now that your world's changing

It's not the end of the summertime
Falling from the one's you'll leave behind
Whoah tell me can we can make it out

It's not the end of the summertime
Falling from the one's you'll leave behind
Whoah tell me can we can make it out
It won't be far away it'll be closer then you know
Release all your fear and doubt
And tell me how to make it out
