

Monolithic Doomsday Devices

Divine Heresy

Void of life your take the path that you've been given
Antichrist lead the charge to dominate
Convert or die your choice has already been taken
In this lie the new human race

The line between the left for dead
Is a fuse for defeat

Take this and put yourself inside the darkness
One place that you can find escape now
The verdict that ignites the sky when
You see the sun

Take all the world
You get what you kill
Enslaving them all
You get what you kill
You take all the world
You get what you kill
Enslaving them all

Void of life your take the path that you've been given
Antichrist lead the charge to dominate
Convert or die your choice has already been taken
In this lie the new human race

The path it sees come quickly
To excuse the apathy

Take this and put yourself inside the darkness
One place that you can find escape now
The verdict that ignites the sky when
You see the sun

Take all the world
You get what you kill
Enslaving them all
You get what you kill
You take all the world
You get what you kill
Enslaving them all

Void of life your take the path that you've been given
Antichrist lead the charge to dominate
Convert or die your choice has already been taken
In this lie the new human race

Trample your will to live
Free you of life
Sever your will to live
And bring the time to die

Die!!!

The sky is falling
The gears of war are turning
Monolithic doomsday devices
