

# Heal Me

Divinefire

Heal me, heal me from the suffering!  
See me, See me, Give me strength within

So many days of despair  
When will it end? Yeah - When will it end  
So many days of despair  
When will it end? Tell me when will it end

Here I am, Let me see your way  
The time is short and there's no turning back

Feelings, feelings  
Lord keep me from going wrong!  
Tell me, tell me  
When the time is right for me

My mind is tired  
I need to rest  
I need your power  
For the final test

Can't force the process  
I can't speed it up  
You're in charge of my life now  
I leave it all in your hands

I worked so hard  
All I got was a broken heart

I don't want to crash anymore  
Lord give me hope to carry on

Dear God  
Be close to me  
Take all my burdens  
I want to be free  
Dear Lord  
Lead me on your way  
Lead me on your way
