

All Streets End

Division of Laura Lee

I know a place where all streets end
Just a few steps one last breath
Don't stop keep up and then stay
I'll turn around and walk away
Don't stop keep up and then stay
We're at where all streets end
Light up and burn, burn like the sun
One touch and turn, turn around and run
Take it easy, love take it easy
I'm leaving
You know a place where all streets end
Just a short walk some smalltalk
Shut up give up and forget
And i'll turn around and it's set
Don't stop keep up and then stay
We're at where all streets end
Light up and burn, burn like the sun
One touch and turn, turn around and run
Take it easy, love take it easy
I'm leaving
We're at where all streets end
