

## See Daylight

Dizmas

i can see your eyes how they're watching (me)  
how you burn with passion  
for what it's worth  
you have my undivided attention

don't stop till you get it right yeah  
don't stop till you see daylight  
this is the tension  
don't stop till get it right now  
don't stop till you see daylight

can't imagine life without this wonder  
why i burn with questions  
my comfort is missing  
but my soul is in motion  
this is the tension

comfort is our favorite invention  
comfort is our only intention  
comfort is our favorite invention  
ask me some questions and i'll tell you some lies
