

# Everything Must Go

Dizzee Rascal

Everythin' must go  
Everythin' must go  
Everythin' must go  
No squares in the circle  
Everything must roll  
What's the plan when the smoke clears  
An' it all takes its toll?  
I don't know

Uh  
Futurist  
Ludicrous  
Like the news except my views are true and I cut through the mist  
Scrupulous  
I'll dismiss if you persist  
Deep down I'm a youthanist  
Still ruthless  
Bitter sweet  
Neutralist  
Not new to this  
I can see the world dwindle  
Got my spider sense tinglin'  
I'm just out here minglin'  
All I see is politicians runnin' round tryna keep their pockets jinglin'  
Sounds like I'm singlin'  
Can't forget about the back scamps and the swindle  
No point in lingerin'  
Everybody's gotta eat  
Somebody's gonna cheat  
Out here on a tightrope tryna stand on their two feet  
Kids are tryna be street  
It's peak  
Get swept off of their feet before them condos are complete  
Yeah it's deep

Everythin' must go  
No squares in the circle  
Everything must roll  
Rollin' up that crowd  
It's gettin' out of control  
What's the plan when the smoke clears  
An' it all takes its toll?  
I don't know  
Everythin' must go  
Everythin' must go  
Everythin' must go  
No squares in the circle  
Everything must roll  
What's the plan when the smoke clears  
An' it all takes its toll?  
I don't know

Uh  
Bottle poppers and socialites  
Gassed up and over-hyped  
No oversight  
Really puttin' on a show tonight

Not me  
I'm overtight  
Girl told me I'm miserable  
She said why you gotta over analyse  
Why can't you just let lose and have fun like them other guys?  
Jumpin' round like orangutans on the table  
With their sparklers  
And their champagne all publicised  
Why you always gotta summarise  
Why can't you just live life in the moment?  
And act like this glamour life ain't just a bunch o' lies?  
But I'm wide awake I can't fake no more  
Wide awake I can't take no more  
It was fun while it lasted  
But it's the kind of shit I can't rate no more  
Kind of shit you get carried away and start movin' lose  
And get posted up on your Instagram and fans hate you for  
Cos the excess just vexes  
The world's more complex than being first name on the guestlist  
Or sexist, being reckless with a dancer in Texas  
Called Lexus I'm restless  
Textin' all my exes like

Everythin' must go  
Everythin' must go  
Everythin' must go  
No squares in the circle  
Everything must roll  
What's the plan when the smoke clears  
An' it all takes its toll?  
I don't know

"The last thing we want to have in our city is a situation like a-such as Paris where erm the less well off to the [?], to the suburbs, that is not going to happen in London. I will emphatically resist any attempt er to-to-to recreate a London in which the rich and poor can't live together."
