

Brainless

Dizzy Mizz Lizzy

Deeper sea
Bad on real
Wide awake
Never turn
Never learn
Never break
Live a life
Till you die
What a curse
I know you're bad
But when you're good
It's even worse
Should have known better now
Ancient juvenile
Never really see you smile
Showing our style
To be brainless
Make a lot of noise
Never really hear your voice
No you got the choice to be brainless
Should have known better now
Hit the blind
Lead the blind
Ditched black
I don't mind
Out of line
Off the track
Take a bow
Do it now
Time is up
Lead the stage
In a rage
Smash it up
The sooner the better now
Ancient juvenile
I never really see you smile
Showing our style
To be brainless
Make a lot of noise
Never really hear your voice
No you got the choice to be brainless
Should have known better now
You won't get high
If you ain't never low
You won't be fast
If you ain't never slow
You think you're wise
But you don't really know
Ancient to rely on
Ancient juvenile
Never really see you smile
Showing our style
To be brainless
Make a lot of noise
I never really hear your voice
No you got the choice to be brainless
Should have known better now

Oh, the sooner the better now
