

Fly Above the Radar

Dizzy Mizz Lizzy

One more time around
Don't know what is up or down
But I am not alone
Something that I've never known

Wait until you see the light
Take it to the other side
Right, but do it right alone
All the best is yet to come
Fly above the radar
Hush the navigator
Nothing's gonna stop me now
High above the radar
My continuator
Nothing's gonna stop me now
Oh is gonna stop me now

One more time around
Never mean to let you down
And I apologize
It took a while to realize

Wait until you see the light
Take it to the other side
Right, but do it right alone
All the best is yet to come
Fly above the radar
Hush the navigator
Nothing's gonna stop me now
High above the radar
My continuator
Nothing's gonna stop me now
Oh is gonna stop me now

High above the radar
My continuator
Nothing's gonna stop me now
Oh is gonna stop me now
Oh is gonna stop me now
