Fly Above the Radar

Dizzy Mizz Lizzy

One more time around Don't know what is up or down But I am not alone Something that I've never known

Wait until you see the light Take it to the other side Right, but do it right alone All the best is yet to come Fly above the radar Hush the navigator Nothing's gonna stop me now High above the radar My continuator Nothing's gonna stop me now Oh is gonna stop me now

One more time around Never mean to let you down And I apologize It took a while to realize

Wait until you see the light Take it to the other side Right, but do it right alone All the best is yet to come Fly above the radar Hush the navigator Nothing's gonna stop me now High above the radar My continuator Nothing's gonna stop me now Oh is gonna stop me now

High above the radar My continuator Nothing's gonna stop me now Oh is gonna stop me now Oh is gonna stop me now
