

Made to Believe

Dizzy Mizz Lizzy

Made to believe
What you are, What you need
Really no time to turn

Turn up the light if you wanna be closer
Hold on to me if you wanna let go
Nobody knows if it's gonna get lonely
Nobody knows if it's gonna grow old

No navigation
For my imagination
Always on my mind
Skipping fearless
Far away from in this
But I'm always right on time

Made to believe
What you are, What you need
Really no time to waste

Made to believe
What you are, What you need
Really no time to waste

Made to believe
What you are, What you need
Really no time to turn

Made to believe
What you are, What you need
Really no time to...
turn

Made to believe
What you are, What you need
Really no time to waste

Made to believe
What you are, What you need
Really no time to waste

Made to believe
What you are, What you need
Really no time to turn

Made to believe
What you are, What you need
Really no time to turn
