Quick on hotels irritated but still the ladies first

She know she need some work,

Quickly was acting wrong,

And self-improvement is the movement we can't live alone

She good to reason with

She hide and need the shit

She know the biggest shit she actually gotta be reject

I hear and breath it hard, when I open waking up

And I just can't see it all, but I don't wanna be involved

And this little things I happen to see

Without your notice I see you practicing what we preach

So when we look over that's the reason I'm acting in sleep

No time for the games, she runnin' with things

She wake up smiling and even know she been through lot of things

She cherish a life, sleeps gay through the night

Prepare for the fight 'cause you're such a queen

Tell 'em take it to leave it, 'cause you're getting the dime

Look! Check you out! Will you be stepping out

You know you Cuban niggas . out, mhm

Long as you're happy ain't concerning that's how they hear you burning up

You need to bring the temperature down

A broken heart is just a room, you carry with it in style

Oh shit, mama she no living for now
And then kidding and I grab a hand and I twist her around
We do the .in this bitch she's laughing and I'm whilling
Can't dance I just like to see my lady smiling
Fallin' asleep and I'll be true in advance
Motivation for when you wake up and do it again.
