

# Already There

DJ Antoine

I can't forget all the things you wanted from me  
Let's just put it in the past, make new memories  
I've been reborn and I want to be back in your life  
Cause with you gone it's like I've been stabbed with a knife

And I'll catch you when you fall  
Back in love with me again  
Even if I have to crawl  
I'll get back on my feet again

Faster than the speed of light  
It's like as if I'm floating through the air  
You don't need to wait any longer  
Cause I'm already there  
You gave me wings so that I could fly  
And your love has made my heart aware  
And I can feel it getting stronger  
Cause I'm already there!

You've taken off all my armour, now my heart's exposed  
You've got the key to unlock your love and let it go  
I've got a one way ticket, there won't be no turning round  
And I can't wait to get my two feet on the ground

And I'll catch you when you fall  
Back in love with me again  
Even if I have to crawl  
I'll get back on my feet again

Faster than the speed of light  
It's like as if I'm floating through the air  
You don't need to wait any longer  
Cause I'm already there!  
You gave me wings so that I could fly  
And your love has made my heart aware  
And I can feel it getting stronger  
Cause I'm already there!

I'm already, already already there  
I'm already, already already there  
I'm already, already already there  
I'm already, oh, I'm already there

I'm already, already already there  
I'm already, already already there  
I'm already, already already there  
I'm already there

Faster than the speed of light  
It's like as if I'm floating through the air  
You don't need to wait any longer  
Cause I'm already there!  
You gave me wings so that I could fly  
And your love has made my heart aware  
And I can feel it getting stronger  
Cause I'm already there!

Faster than the speed of light  
It's like as if I'm floating through the air  
You don't need to wait any longer  
Cause I'm already there!  
You gave me wings so that I could fly  
And your love has made my heart aware  
And I can feel it getting stronger  
Cause I'm already there!
