Already There

DJ Antoine

I can't forget all the things you wanted from me Let's just put it in the past, make new memories I've been reborn and I want to be back in your life Cause with you gone it's like I've been stabbed with a knife

And I'll catch you when you fall Back in love with me again Even if I have to crawl I'll get back on my feet again

Faster than the speed of light It's like as if I'm floating through the air You don't need to wait any longer Cause I'm already there You gave me wings so that I could fly And your love has made my heart aware And I can feel it getting stronger Cause I'm already there!

You've taken off all my armour, now my heart's exposed You've got the key to unlock your love and let it go I've got a one way ticket, there won't be no turning round And I can't wait to get my two feet on the ground

And I'll catch you when you fall Back in love with me again Even if I have to crawl I'll get back on my feet again

Faster than the speed of light It's like as if I'm floating through the air You don't need to wait any longer Cause I'm already there! You gave me wings so that I could fly And your love has made my heart aware And I can feel it getting stronger Cause I'm already there!

I'm already, already already there I'm already, already already there I'm already, already already there I'm already, oh, I'm already there

I'm already, already already there I'm already, already already there I'm already, already already there I'm already there

Faster than the speed of light It's like as if I'm floating through the air You don't need to wait any longer Cause I'm already there! You gave me wings so that I could fly And your love has made my heart aware And I can feel it getting stronger Cause I'm already there! Faster than the speed of light It's like as if I'm floating through the air You don't need to wait any longer Cause I'm already there! You gave me wings so that I could fly And your love has made my heart aware And I can feel it getting stronger Cause I'm already there!
