

Perfect Day

DJ Antoine

I wake up in the morning
No worries feeling fine
We partied all night
Still no clouds up in the sky
My friends are all around me
We're surfin in the sun
Let's get this party started
Yeah we gonna have some fun

This is just a perfect day,
We're living like there's
No tomorrow
This is just a perfect day
Let's celebrate forget all
Your sorrow
It's perfect
So perfect
It's perfect
Such a perfect day

I was dreaming about tonight
My baby by my side
The beach is my fiesta
Pumping beats in my ride
We're gonna get it started
And hands up in the sky
This day is just too perfect
Don't get wasted
Get high

This is just a perfect day
We're living
Like there's no tomorrow
This is just a perfect day
Let's celebrate forget
All your sorrow
It's perfect
So perfect
It's perfect
Such a perfect day

Your hands up, your hands up,
Your hands up
Now let me see your hands up
