

# Sky Is The Limit

DJ Antoine

Sun is coming up over the hill  
I can hardly sits there  
I got the will and I'll find a way  
I'm not afraid

Waited for the chance  
all over my Life  
I can't watch it go by  
now is the time  
It's your choice to make  
every breath we take

No more praying  
off your knees  
play your heart out  
till your finger bleed  
Yesterday's is history  
tomorrow's a mystery  
but today we're gonna shine

So put your hands up  
and touch the sky  
cause the sky is the limit  
tonight  
we are all born to fly

So put your hands up  
and touch the sky  
cause the sky is the limit  
tonight  
we are all born to fly

Reaching for a higher elevation  
a new destination  
new revelation  
find it in your heart  
that's where you start, yeah

So no more praying  
off your knees  
play your heart out  
till you finger bleed  
Yesterday's history  
tomorrow's mystery  
but today we're gonna shine

So put your hands up  
and touch the sky  
cause the sky is the limit  
tonight  
we are all born to fly

So put your hands up  
and touch the sky  
cause the sky is the limit  
tonight  
we are all born to fly

Nothing to fear  
but fear itself  
you got nothing to lose  
so give it hell  
I'm not wasting more dimes  
on wishing wells  
we gotta rise up hight

So put your hands up  
and touch the sky  
cause the sky is the limit  
tonight  
we are all born to fly

So put your hands up  
and touch the sky  
cause the sky is the limit  
tonight  
we are all born to fly, yeah

Born to fly  
Born to fly  
the sky is the limit  
the sky is the limit tonight
