

Sunlight

DJ Antoine

I can feel the sunlight
I love morning sunlight
I can feel the sunlight
After the party tonight
You turn grey skies into blue

This summer is here
It's the anthem for y'all
I'm riding my car
With the top down and the wind blow

Turn this up and let's celebrate
We can't wait until the springbreak
Everybody's swimming
Backyard full of women
Come on let sunlight in your heart

This summer is here
It's the anthem for y'all
I'm riding my car
With the top down and the wind blow

Turn this up and let's celebrate
We can't wait until the springbreak
Everybody's swimming
Backyard full of women
Come on let sunlight in your heart
