

This Time

DJ Antoine

This time you should take me away
We stop at nothing
at all
take a chance now
right now
cause now I'm losing control
I'm ready to go
This time
you should take me away
to a new place
where it does mind
keep night on the sky
This time
This time
This time
This time
you should take me away
to a new place
This time
why don't we step out
of line
lets just have a
good time
forget about the
to do's
and open the doors
This time
you should take me away
to a new place
Where it does mind
keep night on the sky
This time
This time
This time
This time
you should take me away
to a new place
This time
