

# A Moment to Remember

DJ Bobo

The night is young and so we are my friend  
Looking for some action, show me your reaction  
Don't be shy  
We're having a holiday in wonderland  
Burning like a fire, couldn't get it higher - almost  
touch the sky  
Don't say you're sorry, you ain't got no time  
We'll sing a melody and make it shine  
Camon

Everybody have fun tonight  
Everybody will feel alright  
Every single moment is a moment to remember  
Everybody will get it right  
Sing a song and see the light  
Every single moment is a moment to remember

Ooooh a moment to remember  
Ooooh a moment to remember

Turn up the music bring the lights down low  
Think about tomorrow, forget about your sorrow  
Just say "Yes"  
Don't hurry up relax and just let go  
Here is the party, we gonna start it  
yes you must confess  
This kind of feeling never felt before  
So turn around and we say more, more, more

Everybody have fun tonight  
Everybody will feel alright  
Every single moment is a moment to remember  
Everybody will get it right  
Sing a song and see the light  
Every single moment is a moment to remember

Welcome to the world of joy, of love and harmony  
This is the place to be tonight, I know you've got the key  
Dance the night away, freak out until the morning comes  
The rythm's gonna get you when you hear the drums

Everybody have fun tonight  
Everybody will feel alright  
Every single moment is a moment to remember  
Everybody will get it right  
Sing a song and see the light  
Every single moment is a moment to remember

Everybody have fun tonight  
Everybody will feel alright  
Every single moment is a moment to remember  
Everybody will get it right  
Sing a song and see the light  
Every single moment is a moment to remember

Everybody have fun tonight  
Everybody will feel alright

Every single moment is a moment to remember  
Everybody will get it right  
Sing a song and see the light  
Every single moment is a moment to remember
