

# Around the World

DJ Bobo

Can you feel it  
Can you feel it  
What it means to hold a hand  
I've been around the world  
Can you feel it  
Can you feel it  
What it means to have a friend  
I've been around the world

If you need a hand  
You can find a friend  
In every nation  
Of this world  
If you need a hand  
You can find a friend  
In every nation  
Of this world

I've been around the world  
Saw the desert and the rainbow  
I go for the show  
From the sand to the snow  
Moscow to Manila  
Milano to Beijing  
Caracas to Cape town  
And back to Montreal  
Stop running everyday  
From the pain, say no go  
Driving you insane  
No shame that you want let show  
Call my name, I feel the same  
When you have sorrow  
Grow let it go  
There will always be a tomorrow

All around the world  
When you need a friend  
I'll be there, anywhere  
Don't care, with a helping hand  
Understand one another till the end  
I swear, I'm fair, I care  
Always gonna be there  
Black, white, yellow  
No matter if you're young or old  
All for one, one for all  
That's what my mother told me  
Different colours and faces  
Find the trace  
To your base embrace this human race  
Life, will flow like a waterfall  
I've been around the world saw  
The desert and the rainbow

I've been around the world  
Saw the desert and the rainbow  
I go for the show  
From the sand to the snow

From New York to Paris  
Sao Paulo to London  
Sydney to Munich and back to Jakarta  
Huge and unvorgettable China  
People so open much more as I expected  
Invincible pleasure in Brasil, Samba  
Fond of life, there was no time to chill  
I've been around the world  
A thousand times for sure  
Could be more explore before  
You walk through that door
