

Born To Love You

DJ Bobo

Uh baby I'd never lie to you
Before you run away
I really have to say
I'm born to love you
Uh, crazy I feel the same way to
Can't wait another day
I must confess and say
I'm born to love you

Remember we were dancing all night long
We could touch the sky
Remember the name of that song
"I Believe I Can Fly"
Remember the night's in drive in cinemas
On the screen "Out Of The Blue"
Remember the beatle your good old car
I guess I had a crush on you

Remember how you looked into my eyes
You knocked me out you drove me mad
Remember, uh the night was cold as ice
But was the best I ever had
Remember the name of the drink you had
It was a "virgin rough"
Remember every single word you said
I madly fell in love

Uh, baby I'd never lie to you
Before you run away
I really have to say
I'm born to love you
Uh, crazy I feel the same way to
Can't wait another day
I must confess and say
I'm born to love you
Yes I'm born to love you
