

# I'm Crazy

DJ Bobo

I'm crazy  
I'm flying without wings  
I'm crazy  
When the fiesta begins  
I'm crazy  
I'm gonna lose control  
I wanna have it all

We are free, ohhh  
We are free, ohhh  
We are free, ohhh  
The night has just begun  
The best is yet to come

When you feel the passion - as strong as before  
When you're always climbing higher you ask for more  
And whatever you are doing, do it with your heart  
This is your life, this is your life  
Everybody's crazy and just seems to be mad  
Looking for another chance and tries to forget  
Give me all the power I just need to survive  
Come set me free, come set me free

Everybody has a secret deep down inside  
Make it more than just a dream that you never tried  
Everybody has the chance to change all his life  
Change all his life, change all his life  
Everybody wants to live forever and a day  
Nevertheless the price is high, but you have to pay  
Everybody has a secret now I tell you mine  
Now I tell you mine, now I tell you mine
