

# I Need Your Love

DJ Bobo

I need your love love  
Love, I need your love tonight  
I need your love love  
Love, I wanna hold you tight  
I need your love love  
Love, I'll do anything for you  
Take my heart and I'll be yours  
I want you back for good

Cool down and listen what I have to say  
Begging you to hear me, I need you every day  
I've learned my lesson I know it for sure  
You're all I ever want, you're all I ever need

'Cause you once took my love  
And it's like that ever since  
You've turned my senses apart  
A lonely queen without a prince  
I'm trying to forgive you recapture my heart  
Now it's up to you, I want to feel you

Another day is passing and pictures flash by  
All I need is your love 'cause you make me fly  
I got this feeling I just need a chance  
To show you how I care, to show you what I feel

You've learned your lesson, now come back for good  
So many things I've said you misunderstood  
'Cause all that I feel girl, I feel it for you  
You've got me wrapped around
