

Keep on dancing

DJ Bobo

Just keep on dancing, just keep on dancing right now
Right now
Just keep on dancing, just keep on dancing right now
Uh uh yeah yeah

Dance, sweat move your body
Jump around, start the party
Enjoy yourself, you are not a stereotype
Express yourself then you will feel alright all night
'Cause it's party time that's why I'm here
Kicking a rhyme
Get up, get down, get into the break stop
Four and three and two and one
Here we go let's have some fun
Fresh music is what it's all about
Now all the ladies scream and shout
Now get crazy and start humpin`
Dancin', jumpin', sliding and act like a wild thing
I've got the rhythm which keeps you pumpin`
'Cause my singin` lady makes you jumpin`

Move your feet to the rhythm of the beat
Pump up the volume, feel the heat
Turn up the bass and get steady
Let the music move you, get ready
Shake it, break it, just take it
Get on the dancefloor 'cause I make it
Rhythm and bass gives you the power
Like another nuclear shower
Once again in the place it's groovin`
The record is playing the crowd is moving
Pump up the bass in the place
Party people, no time to waste
No matter how fast you walk I am faster
Don't let me get to you I am the master
I play the hits and you start to party
Come on girl let's pump that body

C'est la musique qui nous rens ensemble
Qui fait me souvenir the notre temps ensemble
C'est l'amour qui fait la vie possible
C'est l'amour qui fait la vie possible
