

Let's Come Together

DJ Bobo

let's come together, and have some fun
let's come together, we're dancing in the sun
it's now or never, we take the chance
the time is right we're gonna sing this song tonight

one step to the left, one step to the right
don't stop to dance 'till the morning light
the groove that keeps the world in motion
all the people in the place in a deep devotion
the rhythm like a heart attack
the rhythm for a maniac
the rhythm and the bass makes you wanna dance
the time is right you better take your chance

shake it, make it, break it don't fake it
everybody in the place it's time to take it
let's come together play the music loud
boom, boom, boom, check it out with the sound
the rhythm like a heart attack
the rhythm for a maniac
the rhythm and the bass makes you wanna dance
the time is right you better take your chance
