

## Let's Come Together

DJ Bobo

let's come together, and have some fun  
let's come together, we're dancing in the sun  
it's now or never, we take the chance  
the time is right we're gonna sing this song tonight

one step to the left, one step to the right  
don't stop to dance 'till the morning light  
the groove that keeps the world in motion  
all the people in the place in a deep devotion  
the rhythm like a heart attack  
the rhythm for a maniac  
the rhythm and the bass makes you wanna dance  
the time is right you better take your chance

shake it, make it, break it don't fake it  
everybody in the place it's time to take it  
let's come together play the music loud  
boom, boom, boom, check it out with the sound  
the rhythm like a heart attack  
the rhythm for a maniac  
the rhythm and the bass makes you wanna dance  
the time is right you better take your chance
