

## Like a Bird

DJ Bobo

I would do anything if I could fly  
Escape into the sky  
I'm feeling like a bird  
I would do anything if I could see  
The world in harmony  
I'm feeling like a bird

I'm feeling like a bird  
I spread my wings and fly away  
I'm feeling like a bird  
I close my eyes my dreams come true for one day

In these days,  
Don't know what's right or wrong  
The world has gone to far  
I found a little something to hold on  
And then I see a rainbow shining through the clouds  
See the birds are flying, they are free no doubt  
And imagine it's me, imagine it's me  
I wish I would have wings

Tell me why, this circle never ends  
When will we ever learn  
All the cultures in this world come to one sense  
But then I see the children playing in the street  
Will they have a future, and enough to eat  
And I close my eyes, I close my eyes  
I hope my dreams comes true

Free, free like a bird  
What is this world without love  
Free, free like a bird  
From high above
