

# Love Is Killing Me

DJ Bobo

Love is killing me  
Sometimes thrilling me  
Lift's me up, knocks me down  
Love makes the world go round

Sometimes it feels like I am torn inside  
It's gonna drive me insane  
Sometimes it feels like tons of dynamite  
Exploding in my heart of pain

Oh you got everything, everything, you can make me fly  
You got everything, everything, I can touch the sky  
You got everything, everything, you're my destiny  
You got everything, everything, bring me back my fantasy

With or without you, through the sea of love  
With or without you, I'm a believer  
With or without you, sent from heaven above  
With or without you, I need this fever

No matter what you do, what you do  
love is all we got  
No matter what you do, what you do  
love will never stop  
No matter what you do, what you do  
love is all we need  
No matter what you do, what you do  
love is power energy
